
Heavy Duty Bucket 15L Soft Rubber

Product Images

Short Description

Heavy duty bucket made from soft rubber. Designed for use on wet concrete

Description

This heavy duty bucket has a flat base and is specifically designed for use on wet concrete. Its tough folding handle adds security whilst the completely flat bottom base of the bucket ensures no indentations are made in freshly laid concrete and pavement. The 15 litre concreters rubber bucket is a heavy duty tool that's essential for all types of work site carrying.
