

120L Spill Kit - Marine Oil

Product Images

Short Description

Sorbex marine oil spill kit, 120l

Description

Accidents happen! Be prepared on or near the water with a spill kit that is appropriate for marine oil. Spill kits are convenient and compact bins or packs containing everything you need to mop up a spill quickly and safely. They contain the equipment you need when you need it. Plus, because they are portable, they can be positioned near potential spill areas, or near chemical or fuel storage zones.

Features:

- 120 litre absorbency capacity
- Portable bin
- Will absorb and contain up to 120 litres of oil on water
- Provides 12 metres containment

Included:

- 2 x 6m floating booms
- 30 x oil pads
