

Kings Black Elastic Sided Boot - Size 6H

Product Images

Short Description

Kings Black Elastic Sided Boot 6H

Description

Oliver Kings black elastic sided pull on work boots. A dual density polyurethane sole offers soft shock absorbing tread, and a low density midsole with a hard wearing outer sole is perfect for tough working conditions.

The Oliver cap has a wide profile to suit your foot and is added with a latex cushion liner to ensure the toes are comfortable and not in contact with the cap. Caps are tested to a force of 200 Joule in accordance with the Australian Standard AS/NZS2210.3.

The antistatic treatment minimises the build up of electrostatic charges and provides protection against the risk of spark ignition for such hazards as flammable materials and gases.

- Outsole heat resistant to 130 degrees Celsius surface contact
- Anti-static
- Sole resistant to mineral and organic oils and acids
- Wide range of sizes available
- Pebble grain finish black leather
- Pull on tabs
