Short Description

MSA Galaxy GX2 Multi Unit Charger

Description

- Provides advanced safety management & effortless operation allowing bump & calibration testing to be done automatically
- Offers high performance as either a stand alone unit or an integrated network enabled portable detector management system
- New MSA Link Pro Software offers proactive safety management by addressing gas exposure information and missing or failed calibrations & bump tests
- Galaxy® GX2 significantly reduces total cost of ownership through reduced calibration gas usage and faster testing times
- Simple intelligent testing and calibration of MSA Altair® & Altair® Pro single gas detectors and Altair® 4X and Altair® 5X multigas detectors, driven by the advanced technology of MSA Xcell™ Sensors.
