

Uvex Com-4-Fit Ear Plugs Dispenser Bag of 200 Pairs

Product Images

Short Description

Small size earplugs suitable for smaller ear canals, these Uvex foam earplugs have an ergonomic shape & low expansion rate for comfort. Certified to AS/NZS 1270:2002, SLC80 22dB Class 4. Supplied in a bag of 200 pairs.

Description

With its compact, ergonomically pre-shaped design, the Uvex 'com4-fit' is comfortable for wearers with narrower ear canals. This Uvex earplug has a sealed surface, preventing foreign bodies from penetrating the plug. The soft foam provides a high level of comfort, even when worn for extended periods. Uvex's patented x-grip technology reduces pressure in the ear canal and makes it significantly easier to remove the earplug, thereby increasing wearer comfort even when worn for long periods. Ideal for applications such as construction, light manufacturing, manufacturing plants with medium level noise areas, and long term exposure.

The patented “X” recess reduces pressure build up in the outer ear canal, whilst the ergonomic shape & low expansion rate add user comfort. A hi vis orange colour allows easy visual inspection.

Features:

- SLC80 22 dB, Class 4
- Comfortable low pressure design
- Orange cordless
- Ideal for small or narrow ear canals
- Meets AS/NZS 1270 Standard
- Supplied in a refill bag of 200 pair to suit earplug dispensers
