

Hazard Sign - Uni-Directional Hazard Sign Chevron 450 x 450mm

Product Images

Short Description

Uni-directional hazard marker sign, black and white chevron, measures 450 mm x 450 mm.

Description

Hazard marker signs convey changes in road direction to road users. They are also used for road closures, bi-directional instructions and width restrictions such as narrow bridges, narrowing road pavements, delineating exposed medians or other obstructions, and to indicate vehicle paths at intersections.

This uni directional hazaed marker sign features a black and white chevron arrow which can be installed pointing left or right. Measures 450 mm x 450 mm.
