Description

The 3M P2P3 particulate filter is suitable for protection against toxic particles such as asbestos (refer to local government guidelines). Also for mould remediation and Beryllium. Higher P3 protection factor can only be achieved with a 3M Full Face Respirator, otherwise P2 protection level when worn on a 3M Half Face Respirator. These 2000 Series particulate filters fit 3M face masks and are sold as a pair.

Protection against:

- P2P3 protection
- Particulates (includes asbestos). Note higher P3 protection factors only achieved with a 3M Full Face Respirator, otherwise P2 protection level when worn on a 3M Half Face Respirator

Use with:

- 3M 6000/7500 Series Half Face Respirators
- 3M 6000/7000 Series Full Face Respirators

Features:

- Complies with AS/NZS 1716:2012
- Made from 3M high performance filter media for effective filtration efficiency
- Lightweight and provides low breathing resistance
- 3M Bayonet Connection System ensures precise and secure locking
- Low profile and well balanced twin filter design

The 3M Cartridge Filters 6000 Series attach to 3M™ Half and Full Face Respirators to provide gas and vapour protection. The 3M™ Particulate Disc Filters 2000 series attach to the 3M™ Half and Full Face Respirators to provide particulate protection. Cartridges & Filters are tested to AS/NZS 1716.

The 3M™ Cartridge Filters 6000 Series attach to 3M™ Half and Full Face Respirators to provide gas and vapour protection. They are lightweight, well balanced when fitted to a mask, provide excellent field of vision as a result of the unique trapezoidal shape and the 3M™ Bayonet Fixing System ensures precise and secure locking. You can also attach 3M Dust/Mist Filter 5125 to your cartridges with the 3M Filter Retainer 501 to add particulate protection. The 3M™ Particulate Disc Filters 2000 series attach to the 3M™ Half and Full Face Respirators to provide particulate protection. They are lightweight, low breathing resistance, give excellent field of vision and the 3M™ Bayonet Fixing System ensures precise and secure locking.
