

3M Versaflo Miners Helmet PAPR Respirator Kit

Product Images

Short Description

The 3M Versaflo Faceshield Kit TRM-306C is a ready to use powered air purifying kit. Designed for user comfort with adjustable airflow within the helmet. Replacement Parts Available.

Description

This ready to use PAPR (powered air purifying respirator) kit contains a hard hat helmet with 3M Versaflo TR300 powered air respirator, a breathing tube, waist belt, P3 filter, prefilter, battery pack and charger, air flow calibration tube in a kit box.

The Versaflo TRM-306C provides eye, face, head and respiratory protection with optional hearing protection. The airflow capability allows for extra comfort, lower noise and less fogging. Its built in air flow detector allows the wearer to control airflow inside the helmet for optimum comfort.

Includes 3M Versaflo™ powered air filter unit and a high impact helmet with comfort faceseal. This provides integrated respiratory, head, eye and face protection making it ideal for confined and hazardous environments such as mines. A visual / sound alarm indicates low battery or low air flow, and the high impact scratch resistant polycarbonate visor combines excellent peripheral and downward vision with exceptional optical clarity.

Features:

- Full face, eye, head and respirator protection in one package
- Adjustable air hose for user comfort
- Made with user comfort in mind, including airflow adjustment within the helmet
- Excellent wide field of vision from the faceshield
- Modern, easy to use and maintain Type 1 Industrial Safety Helmet
- Lightweight with exceptional balance and wearer comfort
- Coated visor provides added chemical and scratch resistance
- Fully-adjustable suspension that includes textile straps for optimal fit and weight distribution
- Suitable for users with significant facial hair for which traditional respirators may not be suitable
- [Replacement filters available](#)
- Complies with AS/NZS 1716:2012 Respiratory protection
