

Black Eagle Faceshield - Clear Visor

Product Images

Short Description

Black Eagle Face shield - Clear Visor

Description

The MSA Black Eagle face shield is available in 3 different shaded & clear visor options. Offering medium impact protection, it is suitable for applications such as grinding. The thick polycarbonate helps to protect workers from impacts and splashes. With a fully adjustable head suspension as well as forehead and chin protection, the clear MSA faceshield is ideal for protection against flying debris and particles, liquids and vapors.

A one size fits all sizing means this compact and well balanced faceshield is suitable for all head shapes, with adjustment possible via the ratcheting headgear. Approved to AS/NZS 1337, this faceshield offers a wide field of vision and is an excellent choice for grinding, chainsaw operations and more. Shade 3 and Shade 5 versions are also available for brazing and cutting operations.

Features:

- Certified to AS/NZS 1337
- Medium impact
- Measures approximately 400mm x 180mm
- Ratcheting headgear for custom fit adjustment
- Polycarbonate face visor with chinguard
- Ideal for grinding, light splash protection and more
- Brazing/cutting Shade 3 and Shade 5 Black Eagle visors also available from Jaybro
