Description

Yellow tiger tail suction hose. Sold by the metre in continuous lengths up to 20 metres. Jaybro can supply a custom length of hose complete with fittings for your requirements.

Specially designed for abrasive material like gravel, cement and sand, this hose is commonly used in vacuum excavation.

With a temperature range of -5 degrees Celcius to +60 degrees Celcius, it is ideal for heavy duty oil suction applications in construction, civil, sewerage, plumbing, drainage and industrial industries.

Jaybro's tiger tail suction hose is constructed from yellow PVC reinforced with a rigid PVC helix, meaning it can stand up to the rigours of harsh weather and heavy-duty use.

Plus, you can personalise your hose to suit your particular project: Jaybro stocks a wide range of hose fitting and clamps including Camlock, Bauer, Travis and Strainers claw type fittings to suit your specific needs. We can fit any hose tail kit you require.

Jaybro keeps up to 95% of our product on the shelf and in stock so we can deliver to you, fast!

- Working temperature -5 degrees Celcius +60 degrees Celcius
- PVC reinforced helix construction
- Suitable for sand, cement, gravel and particulate delivery or discharge
