Short Description

Sizes: SM to 5XL. **Please note this product is flagged as 'end of life' and therefore is no longer available from Jaybro. [Please click here to see our current range of coveralls.](#)**

Description

Microgard 2000 Standard Coveralls provide protection and comfort with exceptional liquid and particulate protection. Ideal for a wide range of industrial applications including paint spraying, pharmaceutical, agriculture, clean rooms and animal work.

The two-way stretch microporous film is designed to allow perspiration to escape from the suit yet will withstand saturation of liquid chemicals and filter 100% of particulates down to 0.01 microns in size. The use of a high quality two-way stretch microporous film provides an effective liquid and particle barrier combined with a high water vapour transmission rate from inside to outside.

- Type 5 and 6 protection
- Excellent liquid penetration resistance and barrier to fine particulates
- Breathable to help reduce the risk of heat stress
- Silicone free - Critical in paint spraying applications
- Bound seams offer superior strength and an effective liquid and particle barrier
- Low lint reduces the risk of fibre contamination in some critical areas
- Optimised fit improves wearer comfort and safety
- Anti-static tested according to EN 1149-5
- Elasticated hood,ankles & wrists
