

# Oliver AT Caustic & Water Resistant Safety Boot

## Product Images

## Short Description

---

Caustic Resistant and Water Resistant Leather Oliver Safety Boots. Features COMFORTcushion PU/PORON Impact Absorption, fully lined with padded comfort collar and tongue lace locking device. Available in sizes: 5 - 14, 6H - 10H. No zipper.

## Description

---

The 100% waterproof exterior make these Oliver boots ideal for the construction, agriculture, chemical, oil and gas, mining, and quarrying industries. The All Terrain (AT's) boots incorporate new features and engineering advancements such as 100% waterproof technology, full CORDURA vamp for abrasion and caustic resistance, and Q-Flex® non-metallic penetration protection insole.

Innovative COOLstep® moisture wicking lining and new NANOLite® foot beds draw moisture from the feet keeping them dry and comfortable for all day wear. All this, while reducing the overall weight of the boots.

Providing the user with all round foot protection from impact and abrasion, these safety boots comply with AS/NZS 2210.3:2009, EN ISO 20345:2011.
