

Oliver Kings Safety Toe Steel Midsole Gumboot

Product Images

Short Description

Oliver Safety Toe Steel Midsole Gumboot made from black heavy duty PVC with steel midsole protection. Available in sizes 5 - 12.

Description

Oliver King's 10 Series heavy duty PVC waterproof safety gumboot with stainless steel penetration resistant midsole. The PVC/Nitrile sole is resistant to solvents, mild acids, alkali, some chemicals, oils and fats.

A tough Type 1 Toe Cap offers a wide profile shape to suit your foot and allows greater comfort. This type 1 Steel toe cap offers protection against drop and crush injuries and is developed to withstand a force of 200 joules. These gumboots also features a heel guard for stability and impact protection and a sole penetration protection to reduce the risk of sharp objects penetrating the sole and entering the foot.

Ideal for:

- Chemical
- Building & Construction
- Food Processing
- Agriculture
- Storage and Warehouse

Features:

- Available in sizes 5 - 12
- Wide grip tread for optimum dirt release and traction
- Removable footbed for added comfort
