Short Description

SPF50+ Sunblock 250ml Bottle

Description

Look after workers on site with a hard wearing water resistant sunscreen. Pro Bloc sunscreen is the perfect all around sunscreen for tough days in the harsh Australian sun. This 250ml bottle is perfect for the site office, work truck or anywhere you need to have sunblock handy. Also available in larger 2.5L pump packs or smaller 100ml tubes for easy application on the go.

The workplace is a major source of solar UV radiation exposure for many adult Australians with outdoor workers having between five and ten times more sun exposure than indoor workers. Exposure to solar UV radiation is the cause of about 99 percent of non-melanoma skin cancers and 95 percent of melanoma in Australia. Although it is always best to try and use the heirarchy of workplace controls to manage this hazard, it's often not possible to move the work inside or simply get out of the sun. In this case, PPE is required which includes sunscreen. Workers should use a sunscreen with a SPF of 30 or higher that is broad-spectrum, meaning it filters UVA and UVB radiation and is water resistant. Lips should also be protected with a lip balm containing SPF 30 or higher.

- ProBloc SPF50+ sunscreen
- 4hr water resistant
- Featuring dry touch technology for a light natural skin feel
- Skin friendly with moisturising Vitamin E
- Nanoparticle free
- Made in Australian for our harsh conditions
