Short Description

450w puddle pump with a 50mm discharge port for pumping large or smaller volumes of water. Ideal for drainage on flooded construction sites, pumping out pits and basements.

Description

The FORT-I-PAC puddle sucker pump is ideal for civil and construction applications. A hardworking, light yet durable pump, this puddle pump is able to pump down to as low as 5mm. Ideal for pumping large or smaller volumes of nuisance water found on flat surfaces.

Recommended for pumping areas like car parks, hallways, manholes and more. These puddle pumps are essential for flooded construction sites, basements and pits.
