

Soudal Gun Grade Gap Filling Expanding Foam

Product Images

Short Description

Gun Grade Trigger Expanding Foam is a one component, self-expanding, ready to use polyurethane foam, which contains HCFC- and CFC-free propellants who are not harmful for the ozonlayer and where the canister is provided with a thread so it can be used on a gun. Because of the Duravalve, the optimal yield remains over the entire shelf life, even when stored or transported lying down.

Description
