

# Precast Concrete Drainage Lintel

## Product Images

## Short Description

Precast Concrete Drainage Lintels are primarily used for kerb entry pits in roads and carparks and become part of the gutter. They can be formed up with a gully grate on top of a pit. Jaybro supplies precast concrete lintels in a range of sizes. Choose from 1200 mm to 3600 mm wide. Sizes refer to the clear opening size of the lintel.
