

Threaded Rod M10 x 1M Zinc

Product Images

Short Description

1m length of M10 threaded rod. Manufactured in Class 4.6 Zinc steel with thread the entire length of the rod. Can be cut into the desired length as needed.

Description

M10 x 1m long lengths of zinc all thread bar, also known as Brooker rod is an alternate to long bolts or concrete anchors. This M10 threaded bar uses a standard nut and washer setup and is recommended for Industrial use.

Threaded bar serves as an anchoring for ceiling hangers, metal ducts, air conditioning systems and more. The flexible and versatile nature of threaded rod makes it ideal for anchoring and fastening.

Features:

- 1m length
- M10 threaded bar
- Can be cut to desired size
