This rod can be cut into desired length as needed. Threaded bar is used to suspend components from ceiling and other onsite applications.< Pack>

Description

M20 x 1m long lengths of zinc all thread bar, also known as Brooker rod is an alternate to long bolts or concrete anchors. This M20 threaded bar uses a standard nut and washer setup and is recommended for Industrial use.

Threaded bar serves as an anchoring for ceiling hangers, metal ducts, air conditioning systems and more. The flexible and versatile nature of threaded rod makes it ideal for anchoring and fastening.
