Short Description

LVL Structural Timber 95 x 65mm x 6m

Description

LVL (Laminated Veneer Lumber) is an engineered product used mainly for formwork. LVL is stronger, straighter and lighter than traditionally milled timber. LVL timber is a versatile and reliable structural material that offers many advantages over traditional wood products. Its strength, durability, eco-friendliness and ease of use make it a popular choice for a wide range of construction applications, from residential homes to commercial buildings and infrastructure projects
