Short Description

Flextool Concrete Vibe Shaft 60Mm X 9M

Description

The Flextool VP Series of Immersion Concrete Vibrators produce high frequency vibration allowing for the efficient compaction of low slump concrete mixes.

The Flextool Promise:

If the unexpected happens and something goes wrong with your Flextool equipment within the first 12

months of purchase, Flextool will arrange a loan machine for 2 days, free of charge, so you can get the job done. If a Flextool product breaks down on site, get in touch with Flextool customer service for assistance with arranging a loan machine through your local hire partner.
