

Flextool Aluminium Bullfloat 900 x 150mm

Product Images

Short Description

Flextool Aluminium Bullfloat 900x150mm

Description

The Heavy Duty Bullfloat is the concrete placers workhorse. This hard wearing tool is made from the highest quality extruded material for added strength and longer life. Bullfloats are used immediately after screeding to level the surface and bring bleed water to the surface. A tilt mechanism allows you to push and pull easily when used with telescopic handle or clip handle. It comes complete with H/D worm pitch drive and three 1800mm clip-together handles. Measures 900mm x 150mm.
