

Flextool Magnesium Float - ProSoft Handle 80 x 405mm

Product Images

Short Description

Mag float measuring: Width: 80mm, Length: 405mm

Description

Magnesium Floats are used in the early stages of concrete placement for working the concrete and bringing moisture to the surface. They can also be used again in the late stages of concrete finishing to create a fine textured finish similar to a steel or wood float. All Flextool Magnesium Floats are produced with a broken-in or curved blade and come standard with a ProSoft rubber grip for user comfort. Measures 80mm x 405mm.
