## Product Images

## Short Description

---

Flextool Petrol Drive Unit 5.5Hp Super. Compatible with all flexshaft pumps and concrete vibrators fitted with a 3-tooth drive coupling. Designed with a durable heavy-duty motor protection frame and Honda 4-stroke engine for hassle-free operation and low engine emissions.

## Description

---

The Flextool Super Drive Unit FDU-P2 is fitted with a quick action coupling for quick and easy connection of a wide range of flexible shaft submersible pumps and concrete vibrators. It has heavy duty engine protection frames along with crane lifting hook for easy and safe onsite handling. The FDU-P2 model also has dished steel base for easy mobility over concrete reinforcing mesh and spring and rubber mounts for vibration isolation.

**Features:**

- Dished steel base for dragging across reinforcing mesh
- Heavy duty motor protection frame
- Flextool drive units are compatible with all brand flexshaft pumps and concrete vibrators fitted with a 3-tooth drive coupling
- Vibration Isolators
- Operating weight: 30kg
- Engine speed: 3,000rpm
- Engine model: Honda GX160
- Max rated power: 5.5HP
- Fuel type: Petrol

**The Flextool Promise:**

If the unexpected happens and something goes wrong with your Flextool equipment within the first 12 months of purchase, Flextool will arrange a loan machine for 2 days, free of charge, so you can get the job done. If a Flextool product breaks down on site, get in touch with Flextool customer service for assistance with arranging a loan machine through your local hire partner.
