

Paslode Impulse Framemaster Framing Nailer

Product Images

Short Description

Paslode B20580 7.4V Li-ion FrameMaster is a professional framing nailer ideal for driving 50-90mm nails in hardwood, LVL and more. A powerful 2.2Ah Lithium-Ion battery drives 9,000 shots per 1 hour charge time.

Description

Paslode Impulse Framemaster Framing Nailer comes with PowerVent Technology offering 15% more power. Ideal for professional use, this framing nailer drives 50-90mm nails in different timbers including hardwood and LVL. 2.2Ah Lithium-Ion battery drives 9,000 shots per 1 hour charge time.

Ideal for:

- Framing
- Cladding
- Decking
- Flooring
- Roofing
- Eaves
- Trusses/Rafters
- Joints
- Formwork

Features:

- PowerVent Technology (15% more power) drives 50-90mm nails in timber including hardwood and LVL
- Innovative Power+ Fuel Cell
- Provides high performance in the most extreme climate conditions
- 22Ah Lithium-Ion battery drives 9,000 nails per 1 hour charge time
- On / Off battery positions for improved safety and battery conservation
- Low actuation pressure reduces operator fatigue
- Tool-free depth of drive adjustment gives greater flexibility for nail placement and a superior finish
- Nail lock out bar eliminates blank tool firing to protect timber and tool condition
- Skew nailing teeth placement helps grip timber
- Ergonomic design with non-slip hand grip to improve comfort and safety. Belt and rafter hook for convenience

Specifications:

- Fuel Cell Life approx 1000 Nails
- Cycle Rate 1000/hr (2-3/sec. intermittently)
- Length 310mm
- Height 386mm
- Fastener length 50-90mm
- Magazine capacity approx 52 nails
- Weighs 3.3kg
