

Milwaukee Torque Lock Curved Jaw Pliers 177mm

Product Images

Short Description

Curved Jaw Pliers 177mm / 7", made from forged alloy steel.

Description

Milwaukee 7-inch Torque Lock Curved Jaw Locking Pliers provides you with faster tool setup and more locking force. The locking plier's thumb screw provides you with a more convenient geometry for hand force while providing clearance to generate more torque with the unique screwdriver through-hole design. The plier's hardened jaws give you increased gripping power and they are made of forged alloy steel for maximum durability, perfect for the toughest of job sites.
