

Milwaukee SDS-Max Drill Bit 38 x 570mm

Product Images

Short Description

Milwaukee SDS-Max Drill Bit 38 x 570 mm

Description

FEATURES

- Especially developed robust head geometry with optimum 4 x 90° symmetry of carbide tip: Reduces jamming up on hitting reinforcing steel.
- Centering point with 130° point angle: Easy spot drilling with pinpoint accuracy and ensures optimum guidance during drilling.
- Robust secondary cutter with dynamic curved cutting edge: Supports the primary cutter for faster drilling.
- Shorter spiral windings: This allows for faster transport of drilling dust from the head to the flute = Less wear and heat build-up at the tip.
- Unique carbide tip: With more carbide on all diameters and extra carbide on $\varnothing > 32\text{mm}$.
- Wear mark on both sides of primary cutter: Guarantees diameter accuracy (i.e. for anchor fittings) and acts as a life time indicator in warranty cases.
- Deep flute shoulders: High volume dust removal for optimum drilling
- Less wear and heat build-up.
- Low vibration drilling performance: Comfortable drilling ensures less stress for man and machine.
- Special surface treatment: Shot blasting provides a smooth surface and densifies the surface structure and makes the bit more wear resistant.
- PGM Conformity: Guarantees precise holes for anchor fitting over the entire life time of the drill bit.

Additional Information

CODE	40-4932352793
U.O.M	Each
Dimensions	38 x 570 mm
