

Bosch GLM 100 100m Laser Range Finder

Product Images

Short Description

The small and handy GLM 100 100m Laser Rangefinder is the high-tech solution for convenient measurement. It can be recharged via standard micro USB port, and has a timer function that can be switched on/off for precise measurement from difficult positions.

Description

Measuring tools from Bosch offer outstanding precision and the greatest ease of use. Due to their robustness, the digital measuring tools guarantee the most accurate results in day-to-day construction site applications – whether it be levelling, measuring distances, angles and inclines, or detecting all different kinds of materials.

The high-tech solution for convenient measurement can be recharged via standard micro USB port. It has a timer function that can be switched on/off for precise measurement from difficult positions. Small and handy, it has additional functionality due to an integrated 360° incline sensor. This laser measurer has automatic storage of the last 50 measured values and one constant. Precise and easy to operate due to illuminated display which flips automatically depending on the orientation of the instrument.

Specifications:

- Laser diode: 635 nm, < 1 mW
- Measurement range: 0.05 – 100.00 m
- Laser class: 2
- Measurement accuracy, typical: ± 1.5 mm
- Measurement time, typical: < 0.5 s
- Measurement time, max: 4 s
- Power supply: 1 x 3.7 V Li-Ion battery (1250 mAh)
- Automatic deactivation: 5 min
- Weight approx: 0.14 kg
- Units of measurement: m/cm/mm
- Memory capacity (values): 20 + 1
- Dust and splash protection: IP 54
