

# Makita Power Stirrer Mixer 1300W

## Product Images

## Short Description

---

The Makita UT1400 M14 power mixer utilises a powerful 1300 watt motor that is suitable for mixing and stirring a wide range of materials in volumes of up to 50L. This power mixer is ideal for painters, tilers and builders and suits a range of attachments with an M14 thread.

## Description

---

The Makita Power Mixer features 1300 watts of power and a dual handle design for comfort and control. It is

ideal for professional high volume mixing up to 50 litres. Perfect for concreters, painters, tilers and other tradespeople, this mixer handles paint, filler, plaster, cements and glues for commercial applications. With an electronic switch to regulate speed, it also has a lock on feature for extended mixing operation. The M14 shank suits many common mixing paddles and attachments. The UT1400 mixer is suitable for stirring and mixing paints, plaster, mortar, tile adhesive, levelling and smoothing compounds and similar materials up to a quantity of 50kg. It handles mixing agitators with diameters up to 140mm.
