

Makita 7 1/4" Circular Saw 1800W 185 mm

Product Images

Short Description

The Makita 7 1/4" Circular saw has a maximum cutting depth of 60mm and a maximum bevel capacity of 45 degrees, making it the perfect general purpose tool on site. With a powerful 1,800 watt motor, it comes complete with 185 mm TCT saw blade, guide rule and hex wrench, packed in a carry case. (Not Available in WA)

Description

Makita has listened to the commercial user and engineered the 5007NK 7-1/4" Circular Saw. Featuring a combination of power, weight, balance and durability, this circular saw package is powerful and user friendly. The Makita 7 1/4" Circular saw has a maximum cutting depth of 60mm and a maximum bevel capacity of 45 degrees, making it the perfect general purpose tool on site. With a powerful 1,800 watt motor, it will slice through any cut. The aluminium base plate offers a lightweight and smooth cutting experience and the blower function is a thoughtful addition that blows dust away, giving the user a cleaner cutting view.

Makita's 5007NK has a powerful 1800w motor which provides a high power-to-weight ratio. With large, easy-to-read markings on the scales and large cam levers that are easy to set for fast bevel and depth settings, it's a user friendly addition to the toolbox. Convenient lever placement gives easy depth adjustments, and blade changes are convenient with a flat motor housing design. The saw has a rubberised grip for added comfort, and a reinforced cord to better withstand job site use.

Features:

- Maximum cutting depth of 60mm
- Max bevel capacity of 45 degrees
- Powerful 1,800W motor to get through any cut
- Aluminium base plate for a light weight smooth cutting design
