

# Milwaukee Metal Saw Blade 5 3/8"

## Product Images

## Short Description

---

Milwaukee Metal Saw Blade, 5 3/8" 135 mm 30 Teeth

## Description

---

Milwaukee® MetalTech™ circular saw blades are specifically designed to exceed the expectations of contractors for blade life, cut quality, and speed in the most demanding metal cutting applications - without a lubricant. A hand-tensioned, hardened alloy steel body extends blade life and delivers the highest quality cuts available. Carbide tipped teeth with Alternate Top Bevel grind shear through metal leaving burr-free, cool-to-touch cuts. Designed for use with the M18™ Cordless 5-3/8" Metal Saw, these blades feature a thin kerf that reduces the amount of drag and resistance while cutting, resulting in more cuts per charge.

**Features:**

- Dry - No lubricant required, saving time and money with less mess
- Cool - No extreme heat buildup preserves blade life and allows handling the work piece immediately
- Clean - No burrs eliminates secondary operations saving time and money
- Lasts up to 25 times longer than abrasive blades

**Specifications:**

- Model Number 48404070
- 5 3/8" (135 mm) Ferrous Metal Blade
- 30 Teeth
