

Site Box - Heavy Duty Toolbox 965mm

Product Images

Short Description

Site Box Heavy Duty, 965mm wide. This steel site storage box is designed for industrial worksite use; it is rugged and high quality.

Description

This heavy duty site storage box is made from tough steel for longevity on site. The gas strut lid enables easy access to your tools and gear. Perfect for use on the job site, this toolbox features heavy duty caster wheels making it mobile and versatile. The large capacity makes it perfect for storage on site or on the work ute: 965mm width makes it big enough for all your day-to-day tools and gear. This yellow toolbox features the Jaybro logo and it is built to withstand harsh worksite conditions. These simple yet durable site boxes are easy to move around on the included castors and are available in 965mm wide or a larger 1200mm wide version. Store tools, equipment or anything else that needs protection from dust and debris, and security from theft.
