

Drop in Anchors

Product Images

Short Description

Drop-In internally threaded expansion anchor complete with a pre-assembled integral expander plug. Suitable for electrical, mechanical and plumbing services. Choose your size from the drop-down menu below

Description

Drop-In Anchors are an internally threaded expansion anchor complete with a pre-assembled integral expander plug. The anchor is expanded with a matching setting tool designed to protect internal threads while driving the pre-assembled plug to the end of the anchor.

The tapered plug is precisely matched to the internal configuration of the anchor body to develop maximum expansion against the walls of the hole.

Suitable for electrical, mechanical and plumbing services.<
