

Danger Wet Shotcrete Signage

Product Images

Short Description

Wet Shotcrete danger sign manufactured from poly for a durable long life outdoors, measuring 450 x 600mm

Description

Displayed to alert, warn and highlight the threat of a hazard or hazardous situation that can cause extreme harm or be life-threatening. Danger Signs are easy to recognise with the word DANGER in bold white text, encapsulated in a red and black header, the message below the header relates directly to the hazard at hand.
