

Bamboo Cane Plant Stakes 12mm x 600mm

Product Images

Short Description

Machine rounded bamboo stakes used to support newly planted saplings. Sold in bunches of 24 stakes, these bamboo canes measure approximately 10-12mm diameter x 600mm long.

Description

Ideal for young tree planting where plastic sleeve tree guards are being used to protect plants. Machine rounded bamboo, forming a solid flower stick. Used to support newly planted trees and plants, these bamboo plant stakes are inexpensive and easy to use. Sold in bundles of 24. Each bamboo cane measures approximately 10-12mm diameter x 600mm long. 12,000 canes to a pallet.
