

Jaybro Hardwood Stakes 38 x 38mm

Product Images

Short Description

Hardwood stakes (silt fence stakes) in a range of sizes, choose from the below lengths.

Description

Hardwood stake, available in a range of sizes, unpainted. Ideal for landscaping, tree planting, surveyors, installing silt fences and more.

The Jaybro range of premium hardwood stakes is ideal for landscaping contractors. Manufactured from imported hardwood, these tree stakes are suitable for both commercial and residential purposes.

Specifically, hardwood stakes are required due to their strength and durability. Hardwood is an ideal tree stake material, being tough and long-lasting. Its durability is derived from the way the tree forms its cellular structure, creating a very dense wood that resists heavy duty outdoor use.

Jaybro's imported hardwood tree stakes are perfect for landscaping contractors planting out large estates and verges, creating boundaries or installing silt fencing.

Jaybro also supplies hessian tree ties and Corflute tree guards for all your tree planting needs, as well as silt fencing and sedifence.
