

GEOmasta Premium Hardwood Tomato Stake 25 x 25mm

Product Images

Short Description

Hardwood Tomato Stakes 25 x 25mm, available in a range of lengths. Premium hardwood for commercial and residential tree planting. These hardwood stakes are sold in bundles on 10, or 1000 to a pallet.

Description

The GEOmasta range of premium hardwood stakes is ideal for landscaping contractors. Manufactured from premium Australian hardwood, these council-compliant tree stakes are suitable for both commercial and residential purposes.

Hardwood tree stakes are specified by many local councils to support proper tree management. Specifically, hardwood stakes are required due to their strength and durability. Hardwood is an ideal tree stake material, being tough and long-lasting. Its durability is derived from the way the tree forms its cellular structure,

creating a very dense wood that resists heavy duty outdoor use.

Jaybro's GEMasta products such as hardwood tree stakes are perfect for landscaping contractors planting out large estates and verges. This quality landscaping range is ideal for commercial and residential developments. Plus, GEMasta products comply with the requirements of many local councils and civil contractors.

GEMasta supplies tree ties, plastic and corflute tree guards, plant assist and water wells as a complete solution for your tree planting needs.

Features:

- Premium Australian Hardwood
- Sold in packs of 10
- Ideal for commercial and residential purposes
