

Gripple Standard Pin Chuck

Product Images

Short Description

Gripple TLP1 Standard Pin Chuck fits general purpose 18V combi drills. It enables easy installation of Gripple anchors and automatically disengages when the TL-P1 reaches full depth.

Description

The Gripple standard chuck is a bespoke tool for quick installation of TL-P1 Gripple anchors. It is ideal for use when working close to the mat. This chuck enables the operator to install pins to full depth without damaging the mat. Fits general purpose 18v combi drill. Automatically disengages when the TL-P1 Gripple anchor reaches full depth. Also available in extended chuck version.
