

PORTABOOM Pedestrian Light Accessory

Product Images

Short Description

Pedestrian stop/go walk light to suit the Portaboom range of portable boom gates.

Description

Used as an accessory to the **PORTABOOM remote controlled mobile boom gate**, the PORTABOOM Traffic Light accessory provides an additional visual feature to enhance safety, by providing further advanced warning for a motorist to prepare to stop. It is synchronised with the PORTABOOM arm and operated by the same remote control.

- Traffic Light accessory provides an additional visual feature to enhance safety, by providing further advanced warning for a motorist to prepare to stop
- Synchronised with the PORTABOOM arm and operated by the same remote control
- Powered by the PORTABOOM unit power source
- No additional power is required
- Easy to assemble
- May be used in conjunction with other PORTABOOM unit accessories, including the Pedestrian Light accessory
- The 120W Solar panel accessory enables autonomous operation for long term operations
