

AED / Defibrillator Waterproof Tough Case

Product Images

Short Description

Waterproof Tough Case for defibrillator. IP67 rated for security on site, ensuring your AED is always ready and protected, should it be required.

Description

This waterproof case for your AED ensures the unit is always protected on site, even in challenging conditions. It is IP67 rated against moisture and dust, and suits the Heartsine Samaritan PAD-350P available from Jaybro. This hard case also suits a number of other defibrillator models from the Heartsine and Lifepak range.

This sturdy and rugged water and airtight case is ideal for exceptionally humid or rugged conditions. This customisable case is essential for all marine and outdoor applications and is supplied with a rechargeable moisture absorbent to remove any moisture that may be present in the atmosphere after opening the case. Rated to IP67 this case can also be equipped with reusable silica gel desiccant.

The case measures 320mm x 280mm x 120mm.
