

Poly Woven Strapping 500m Roll

Product Images

Short Description

Poly woven strapping on a 500m roll, 19mm wide. Rated to 1100kg. Use with the tensioning tool and poly buckles to create a safer alternative system to steel strapping.

Dispenser sold separately.

Description

This high quality, robust polywoven strapping is designed for longevity on site and in the warehouse. This soft

woven strapping is 19mm wide and comes on a 500 metre roll. It retains its tension for long periods of time and can easily be re-tensioned with the poly woven tensioning tool as needed. It is lightweight, reusable, and a much safer alternative to metal or steel strapping.

Use with the spring action tensioning tool to pull your poly woven pallet strapping tight and secure, ensuring your packages and bundles stay together. When used with poly buckles, it is part of a fast effective wrapping system.

Features:

- Poly woven strap 19mm x 500m
- 1100kg rated
- Indicative colour - 2 red stitched lines
- Retains tension for long periods of time
- Can be easily re-tensioned when necessary
- Lightweight, safe and re-usable
- Safe alternative to metal strapping systems with a reduced risk of cuts and lacerations
