

Ultracharge 2 x 20W LED Tripod Double Work Light

Product Images

Short Description

Two 20W LED work lights on a sturdy adjustable tripod. Ideal for low light work areas in building, construction and more.

Description

The Ultracharge light weight portable height adjustable work light is ideal for temporary low light situations such as building and fitout of interiors, during building and finishing operations, in the workshop and more. With two 20W LED lights, this tripod work light is adjustable using the telescopic aluminium frame up to a maximum of 1.6 metres. The bright white lights combine to offer 3200 lumens of illumination to ensure you can work safely and without eye fatigue in dim environments. A 1.5 metre 240V cable plugs into any regular outlet or extension cord.
