

Connolly Expansion Joint System Kit to suit 200mm Thick Slab

Product Images

Short Description

Kit includes 6 x [EXJ200 200mm x 3m Expansion Joints](#), 24 x 450mm galvanised dowels, 42 x 24mm dowel sleeves, 6pk of pegs and wedges.

Description

The Connolly Expansion Joint is a continuous pour solution for expansion joints in slab on ground applications.

The straight profile guarantees that the load is transferred through the dowels only.

Connolly Expansion Joints are a roll-formed galvanised steel section with 10mm cross-linked foam to provide a leave in place formwork that allows for joint expansion. The profile is fixed in place using the patented peg

and wedge system.
