

Pro-3G Female Single Universal Interface Davit Winch Bracket

Product Images

Short Description

For use with the Pro-1 davits, winches and other accessories from the Pro-1 Range.

Description

Female single sided Pro-3G Universal Interface Davit Winch Bracket for use in conjunction with the Pro-1 Davit system.

This system is designed as a modular, fit together system requiring no tools for set up. The lightweight steel components use a unique 'BTS-Klick' pinless technology adjustment, allowing simple on site set up and adjustment.

With davits, winches, mounting brackets, davit bases and guardrails sold separately, you can create a modular system that it suited to your individual needs.

These compact and lightweight confined space entry systems are manufactured & Tested to AS/NZS5532-2013.
