Product Images

Short Description

IKAR Rescue Winch Bracket c/w Female Single Interface Brackets. Compatible with davit bases and accessories from the Pro-1, Pro-2, Pro-3G and Pro-4 range.

Description

IKAR Davit Bracket c/w Female Single Interface Bracket for use in conjunction with the Pro Davit system. This system is designed as a modular, fit together system requiring no tools for set up. The lightweight steel components use a unique 'BTS-Klick' pinless technology adjustment, allowing simple on site set up and adjustment. With davits, winches, mounting brackets, davit bases and guardrails sold separately, you can create a modular system that is suited to your individual needs. These compact and lightweight confined space entry systems are manufactured & Tested to AS/NZS5532-2013.
