Short Description

Pro-Series Davit Wall Mount 4 Point 316 Stainless Steel

Description

PRO-Series Permanent davit bases are designed for permanent installations at locations where repeated or frequent use is required. Permanent bases are available in a variety of designs, finishes, and material to meet site specific requirements. Heavy Duty Floor and Wall Mount Bases are intended typically for custom applications where an increased moment load capacity is required. For example larger offsets or multiple system users.

Please contact our team for assistance with choosing the right base for your application.

The Pro Series are modular, fit together davit systems requiring no tools for set up. The lightweight steel components use a unique 'BTS-Klick' pinless technology adjustment, allowing simple on site set up and adjustment. With a range of davits, winches, mounting brackets, davit bases and guardrails sold separately, you can create a modular system that it suited to your individual needs. These compact and lightweight confined space entry systems are manufactured & Tested to AS/NZS5532-2013.

Features:

- Wall mount style
- 316 Stainless Steel
