

# BTRENCHSAFE® Rescue / Retrieval Shoring Davit Kit with Canvas Bag

## Product Images

## Short Description

---

BTRENCHSAFE is a rescue and retrieval davit ideal for mounting on trench shoring. The kit comes complete with a 1.4m high davit, bracket, shoring base with jaw opening and inertia reel with 24m galvanised rope, all pieces except the shoring bracket are packed in a rugged canvas bag.

## Description

---

The BTRENCHSAFE® Rescue/Retrieval Davit comes with Type 3 SRL & Shoring Panel Bracket. It is designed to be mounted on trench shoring (steel and aluminium) panels, and provides users with a safe means of extracting workers out of trenches and ground excavations.

**Davit Features:**

- Manufactured in lightweight ultra strong aluminium grade T6061 and powdercoated in hi-vis orange for increased visibility on site
- Built in visual overload fall indicator
- Multiple adjustable offset reach to allow greater coverage in larger excavations
- Modular construction with no single components weighing more than 12kgs for ease of movement on site

**Inertia Reel (with Recovery Winch mode) Features:**

- 24mts effective working length
- Robust aluminium construction
- Minimal moving parts allowing for reduced chance of equipment damage or component failure due to rough handling on site

**Shoring Panel Bracket Features:**

- Increased surface area of critical holding points that contacts the aluminium shoring panels to prevent puncture and piercing of panels when in use
- Steel construction and powder-coated in hi-vis orange for increased visibility on site
- Adjustable throat opening to accommodate shoring panels with widths of 20mm to 200mm

**Kit Contains:**

- 1 x 33-30106 - Davit mast 3 piece 0.5-0.7m reach, 1.2-1.4m height
- 1 x 33-60202UI IKAR interface winch bracket to suit HRA-24TA recovery block
- 1 x 33-40003B Canvas bag
- 1 x 33-30166R Shoring davit base with jaw opening 20-205mm
- 1 x 33-HRA-24TA Inertia reel with rescue recovery feature aluminium housing. Inertia reel comes with 24m galvanised wire rope and triple action karabiner

**Certifications:**

- All products comply to relevant Australian Standards including AS/NZS5532, AS/NZS1891.4 & relevant Codes of Practice
- Products are also certified by a RPEQ for use within Queensland
- Shoring bracket does not fit in Canvas bag
