Short Description

Consystem Standard Duty Column 200mm - Spiral Finish

Description

Round Tube Formwork Column

Round Formwork Concrete Columns manufactured by a revolutionary spiral system patented by Consystem. Consystem's round tubes are easy to set up, lightweight and are extremely strong and are flexible for various applications. Each diameter offers an option of standard, medium and heavy depending on the required length which allows us to achieve no restriction in height. Simple set up! Consystem columns require minimal bracing, depending on the pouring method used, saving time and labour.

- Light weight
- It is environmentally friendly made up of non-hazardous materials which all can be recycled.
- It is weatherproof and can also be designed for underwater applications not affecting its strength.
- It can be offered in a range of desired finishes including spiral lined and textured.
- Spiral Finish - Class 3 finish will give you a minimal spiral mark
- Lined Finish - Class 2 will be your best choice if you're looking for a smooth off- form concrete
