

Disinfectant 20L Concentrate, Lemon Zest

Product Images

Short Description

20 litre drum of disinfectant concentrate, lemon scented. Mix concentrate to make 300 litres of ready to use disinfectant. Kills 99.9% of germs and bacteria on hard surfaces.

Description

This concentrated surface disinfectant is ideal for cleaning and disinfecting hard surfaces. It kills and removes 99.9% of germs and bacteria and is suitable for use in commercial environments. With a lemon zest scent it deodorises whilst it cleans. Dilute this disinfectant with clean water to produce 300 litres of useable product.

Features:

- When mixed it makes 300 litres of useable product
- It kills and removes 99.9% germs and bacteria on hard surfaces
- Non-hazardous and is suitable for use in commercial and domestic environments
- The disinfectant has masking fragrance which provides a lingering perfume to aid in the deodorizing of odours
- Contains a powerful biodegradable surfactant capable of removing fats, oils, greases and general dirt and grime
- Supplied as a 20 litre drum
