

Jaybro Boot Cleaner and Hand Sanitiser Station

Product Images

Short Description

Designed to provide the greatest amount of cleaning power, this boot scraper will loosen and remove debris such as dirt and mud from work boots. This unit includes a hand sanitiser station for a complete clean-up solution. Includes steel frame boot cleaner unit, two 500mL hand sanitiser pump bottles, brackets for each hand sanitiser, and custom made Jaybro "Boot Cleaner and Hand Sanitizer" signage. **Orange weight sold separately.**

Description

Jaybro's premium brush boot scraper features three steel sides lined with heavy duty bristles. Designed to provide the greatest amount of cleaning power, this boot scraper will loosen and remove debris such as dirt and mud from work boots.

Ideal for mounting at entry and exit points to construction sites, offices and warehouses, this unit includes a hand sanitiser station for a complete clean-up solution. Two pump bottles of sanitiser are included so two employees can use the unit at the same time.

With clear signage indicating boot cleaning and hand sanitising, this easy to spot station provides a quick and effective hand and shoe cleaning station for employees, visitors and contractors at your facility.

Features:

- Heavy duty steel frame construction in high visibility yellow
- Thick, durable boot cleaner bristles
- Easily recognisable signage indicates hand and boot cleaning zone
- Two Jaybro 500ml Hand Sanitisers provided in steel brackets for easy access
- Features screw holes that allow the unit to be bolted to the ground if required

Kit includes:

- 1 x Custom 510 mm x 310 mm poly sign with the legend 'Hand Sanitizer and Boot Cleaner Station'
- 2 x 73-IHS Jaybro 500mL Hand Sanitiser
- 2 x 73-B500ML Hand Sanitiser Bracket
- 1 x Jaybro 68-PSCSHR Boot Cleaner

Please note weight/temporary fence base is not included and is available separately here if additional weight is required to secure the unit: [Temporary fence concrete foot with orange plastic outer shell.](#)
